Google Apps for Education is available as an educational tool for our students and staff. It is a web service and may be used from any computer or device with internet access. This education version of Google Apps provides a self-contained environment for students and staff to collaborate and share information and to publish some resources publicly.

The features and options available will be based on grade level, student awareness, requirements for coursework and formal permission from parents/guardians.

Student accounts may include a variety of Google Apps such as (but not limited to) email, shared documents, spreadsheets and forms. Document sharing and email, when activated, can only be shared with others in the school.

A student must return this form with a parent or guardian’s signature to have an account for Google Apps for Education on the kenningtonps.vic.edu.au domain.

Google Apps for Education Parent Permission Form

Please mark the option below that you agree to then sign and date the form.

Parent Permission for Google Apps for Education Account:
☐ I agree to allow my child to have a Google Apps for Education Account that can be used on any computer or device connected to the Internet. I understand the account is for educational purposes and use must meet the expectations outlined above. Any misuse of the account out of hours will be handled exactly as if it had occurred at school.

No Google Apps Access Option:
☐ I do not give permission for my student to use the Google Apps for Education resources in any form.
