Grade 5/6 Global2 Blog Agreement

About Global2 Blog

At Kennington Primary School the staff use a variety of web tools and resources to develop digital literacies and to educate our students about the appropriate use of digital technologies. The class blog connects those technologies and provides opportunities to learn about managing and participating in social media.

As a parent/guardian you will be able to see the blogs. We encourage you to get involved by posting comments and reinforcing appropriate behaviours on-line.

For your child to participate in this online community we require your informed consent. If you would like more information about how the school intends to use Global2 please contact Kennington Primary School Future Technologies Leader, Ms Erin Jackson.

To join Global2 we will use your child’s school email account and their CASES Code (student code).

Kennington Primary School is Setting Up a Class Blog

As part of this community our school will set up and manage a class blog for your child’s class. The teacher will control all posts. This blog will be open to everyone on the internet allowing:

- a genuine global audience and opportunities to work with other schools on global projects
- an understanding the importance of a positive online presence, and the development of skills and knowledge to manage their technology.

In Grade 5/6, we will also set up and support students to manage their own individual blog using the students’ school email address.

---

Global2 Blog Agreement Parent Permission

☐ I agree to allow my child to use the class blog and manage an individual blog.
☐ I do not give permission for my student to use the class blog and manage an individual blog.

Parent/Guardian Signature:__________________________

Please print Parent/Guardian Name:____________________ Date:______________
